

Oven-Trace 01

Product Specification

Product Description and Applications

Oven-Trace 01 is a metal detectable, food safe material with good tear resistance. Ideal for identification and traceability of products, manufactured in different shapes and sizes of loop locks, swing tags or cards and available in a variety of colours to support colour coding.

Applications that currently utilise Oven-Trace 01:

Butchery
Bakery
Deli Goods

Ready Meals
Fisheries
Food Service Providers

Printability

Pre-printable in up to 4 colours to 2 sides. Variable information printing and barcodes are possible on both sides using a thermal transfer printer and suitable ribbons. The matt paper surface also allows for suitable pens to write on the tag. Dura-ID are happy to advise on the best printer and ribbon solution for maximum resistance and readability.

Storage Guidelines

Dura-ID Solutions recommend keeping this product out of direct sunlight, in temperatures no higher than 23°C at 50% RH. Prolonged storage at a higher temperature affects the shelf-life of Oven-Trace 01.

Material Compliance

- Foodstuffs and Consumer Goods Act of April 2007
- Foodstuffs and Animal Feed Code LFGB,
- Regulation (EC) No. 1935/2004 of the European Parliament
- Directives 80/590/EEC and 89/109/EEC 2005
- No. 5.17 of the Regulation (EC) No 596/2009

Thickness	Micron - 185 +/- 10%
Material Weight	GSM - 200 +/- 5%
Service Temperature	0°C to + 250°C

The above values and information are given in good faith but without warranty. Dura-ID recommends the testing of samples to ascertain suitability. It is the responsibility of the end user to satisfy the suitability of the product for the application. All goods are supplied in accordance with our standard conditions of sale.
