

Product Specification

Static Cling Window Sticker (Recyclable)

Description

A gloss, transparent, non-treated, soft PE Cling film, on a 130 g/m² white gloss board liner. Ideal for labels that cling without adhesive on glossy surfaces requiring easy removal of the label and without leaving any residue.

Printability

Can be printed on one side in up to 8 colours.

Applications

Static Cling can be used to create window stickers that are removable and do not leave behind a residue. Industries for use include leisure and construction. This product is manufactured and converted in the UK and is environmentally friendly.

This product has a shelf life of approximately one year under conditions that are defined by FINAT (20-25°C, 40-50% RH).

Recyclability

Both the PE film face material and the cardboard liner are 100% recyclable in their unmodified form and therefore should be widely recyclable into household waste collection.

Thickness	Micron - 160 +/- 5%
Weight	GSM - 147 +/- 5%
Temperature Resistance	-20°C - +50°C
Adhesive Strength	Removable
