

Oven-Trace 02

Product Specification

Product Description and Applications

Oven-Trace 02 is a metal detectable material ideal for use where indirect food contact occurs. It can be utilised to wrap around tray handles in the form of self-tie tags with a variety of sizes and colours available.

Applications that currently utilise Oven-Trace 02:

Butchery
Bakery
Deli Goods

Ready Meals
Fisheries
Food Service Providers

Printability

Flood coloured to your specific requirements. Variable information printing and barcodes are possible on both sides using a thermal transfer printer and suitable ribbons. The matt paper surface also allows for suitable pens to write on the tag. Dura-ID are happy to advise on the best printer and ribbon solution for maximum resistance and readability.

Storage Guidelines

Dura-ID Solutions recommend keeping this product out of direct sunlight, in temperatures no higher than 23°C at 50% RH. Prolonged storage at a higher temperature affects the shelf-life of Oven-Trace 01.
